CASE NO. CR19-5005RJB

ORDER DENYING REQUEST FOR  
EARLY TERMINATION

18 THIS MATTER comes before the court on the request for early termination filed by the  
19 United States Probation Office. After reviewing the request and the court file and being aware of  
20 the United States Attorney's objection, it appears to the court that the request is somewhat  
21 premature. The defendant should be congratulated for following the requirements of supervised  
22 release, and for making timely restitution payments, and should look forward to a second request  
23 for early termination after some additional time has elapsed. At this time, the request for early  
24 termination simply appears to be premature. Therefore it is now

ORDERED that the pending request for early termination is DENIED without prejudice to a further request for early termination at a later time.

The Clerk is directed to send uncertified copies of this Order to all counsel of record and to any party appearing *pro se* at said party's last known address.

Dated this 25<sup>th</sup> day of April, 2019.
